

UNITED STATES
SECURITIES AND EXCHANGE COMMISSION
WASHINGTON, D.C. 20549

FORM 10-Q

QUARTERLY REPORT PURSUANT TO SECTION 13 OR 15(d)
OF THE SECURITIES EXCHANGE ACT OF 1934

For the Quarterly Period Ended January 31, 2010

Commission File Number 0-23248

SigmaTron International, Inc.

(Exact Name of Registrant, as Specified in its Charter)

Delaware

(State or other Jurisdiction of Incorporation or Organization)

36-3918470

(I.R.S. Employer
Identification Number)

2201 Landmeier Road, Elk Grove Village, Illinois

(Address of Principal Executive Offices)

60007

(Zip Code)

Registrant's Telephone Number, Including Area Code: (847) 956-8000

No Change

(Former Name, Former Address, and Former Fiscal Year, if Changed Since Last Report)

Indicate by check mark whether the registrant (1) has filed all reports required to be filed by Section 13 or 15(d) of the Securities Exchange Act of 1934 during the preceding 12 months (or for such shorter period that the registrant was required to file such reports), and (2) has been subject to such filing requirements for the past 90 days. Yes No

Indicate by check mark whether the registrant has submitted electronically and posted on its corporate Web site, if any, every Interactive Data File required to be submitted and posted pursuant to Rule 405 of Regulation S-T (§232.405 of this chapter) during the preceding 12 months (or for such shorter period that the registrant was required to submit and post such files). Yes No

Indicate by check mark whether the registrant is a large accelerated filer, an accelerated filer, a non-accelerated filer, or a smaller reporting company. See definition of "accelerated filer", "large accelerated filer" and "smaller reporting company" in Rule 12b-2 of the Exchange Act.

Large accelerated filer Accelerated filer Non-accelerated Smaller reporting company .

(Do not check if a smaller reporting company)

Indicate by check mark whether the registrant is a shell company (as defined by Rule 12b-2 of the Exchange Act) Yes No

On March 10, 2010, there were 3,822,556 shares of the Registrant's Common Stock outstanding.

SigmaTron International, Inc.

Notes to Condensed Consolidated Financial Statements

(Unaudited)

January 31, 2010

Note A — Basis of Presentation

The accompanying unaudited consolidated financial statements of SigmaTron International, Inc. (“SigmaTron”), wholly-owned subsidiaries Standard Components de Mexico S.A., and AbleMex, S.A. de C.V., SigmaTron International Trading Co. and its wholly-owned foreign enterprise Wujiang SigmaTron Electronics Co. Ltd. (“SigmaTron China”) and its procurement branch SigmaTron Taiwan (collectively, the “Company”) have been prepared in accordance with accounting principles generally accepted in the United States of America for interim financial information and with the instructions to Form 10-Q and Article 10 of Regulation S-X.

Accordingly, the consolidated financial statements do not include all of the information and footnotes required by accounting principles generally accepted in the United States of America for complete financial statements. In the opinion of management, all adjustments (consisting of normal recurring adjustments) considered necessary for a fair presentation have been included. The Company has evaluated subsequent events through March 10, 2010, which is the date the financial statements were issued. Operating results for the three and nine month periods ended January 31, 2010 are not necessarily indicative of the results that may be expected for the year ending April 30, 2010. For further information, refer to the consolidated financial statements and footnotes thereto included in the Company’s Annual Report on Form 10-K for the year ended April 30, 2009.

Note B — Inventories

The components of inventory consist of the following:

	January 31, 2010	April 30, 2009
Finished products	\$ 8,497,097	\$11,644,129
Work-in-process	1,836,303	2,391,559
Raw materials	21,955,073	22,194,867
	<u>\$32,288,473</u>	<u>\$36,230,555</u>

Note C — Earnings Per Share

The following table sets forth the computation of basic and diluted earnings per share:

	Three Months Ended		Nine Months Ended	
	January 31, 2010	January 31, 2009	January 31, 2010	January 31, 2009
Net income (loss)	<u>\$ 415,468</u>	<u>\$ (265,458)</u>	<u>\$ 530,291</u>	<u>\$1,819,182</u>
Weighted-average shares				
Basic	3,822,556	3,822,556	3,822,556	3,822,556
Effect of dilutive stock options	<u>50,975</u>	<u>—</u>	<u>31,346</u>	<u>46,838</u>
Diluted	<u>3,873,531</u>	<u>3,822,556</u>	<u>3,853,902</u>	<u>3,869,394</u>
Basic earnings (loss) per share	\$ 0.11	\$ (0.07)	\$ 0.14	\$ 0.48
Diluted earnings (loss) per share	\$ 0.11	\$ (0.07)	\$ 0.13	\$ 0.47

Options to purchase 502,037 and 503,707 shares of common stock were outstanding at January 31, 2010 and 2009, respectively.

Note D — Financing Transactions:

Prior to January 2010, the Company had a revolving credit facility with Bank of America under which the Company could borrow up to the lesser of: (i) \$32 million; or (ii) an amount equal to the sum of 85% of the eligible receivable borrowing base and the lesser of \$16 million or 50% of the eligible inventory borrowing base. The revolving credit facility was due to expire on September 30, 2010. In October 2009 the Company conducted a strategic review of its financing arrangements to determine the best long-term alternatives. Based on that evaluation the Company decided to reduce the overall size of its credit facility to \$25 million. Effective October 31, 2009, the Company was in violation of a financial covenant under its agreements with Bank of America. In December 2009, Bank of America provided a Forbearance on the covenant violation until January 8, 2010 to allow the Company to transition to a new bank. On January 8, 2010, the Company entered into a \$25 million senior secured credit facility with Wells Fargo HSBC Trade Bank, National Association (“Wells Fargo”). The term of the Credit Agreement (a copy of which was filed with as Exhibit 10.1 to the Company’s current report on Form 8-K filed with the SEC on January 14, 2010 (the “January 8-K”), which is incorporated herein by reference) extends for two years, through January 8, 2012, and allows the Company to choose the interest rates at which it may borrow funds, which options are based upon the terms of the Revolving Line of Credit Note issued by the Company on January 8, 2010 (a copy of which was filed as Exhibit 10.2 to the January 8-K and which is incorporated herein by reference). The senior secured credit facility requires the Company to be in compliance with several financial covenants. As of January 31, 2010 there was \$15,045,478 outstanding under the senior secured credit facility and approximately \$9.5 million of unused availability. The Company was in compliance with its financial covenants at January 31, 2010.

Prior to January 2010, the Company also had a term loan with Bank of America with an outstanding balance at January 8, 2010 of \$1,500,000, with quarterly principal payments of \$250,000 due each quarter through the quarter ending June 30, 2011 and interest payable monthly throughout the term of the loan. On January 8, 2010 the Company repaid this debt using proceeds from the senior secured credit facility from Wells Fargo.

On November 19, 2003, the Company purchased the property that serves as the Company's corporate headquarters and its Midwestern manufacturing facility. The Company executed a mortgage with Bank of America in the amount of \$3.6 million. On January 8, 2010 the Company entered into a mortgage agreement in the amount of \$2.5 million with Wells Fargo to refinance the property. The Promissory Note (a copy of which was filed as Exhibit 10.3 to the January 8-K and which is incorporated herein by reference) bears interest at a fixed rate of 6.42% per year and is payable in sixty monthly installments. A final payment of approximately \$2 million is due on or before January 8, 2015. The Company repaid the prior Bank of America mortgage, the outstanding obligations under which equaled \$2,565,413 as of January 8, 2010, using proceeds from the Wells Fargo mortgage and senior secured credit facility.

Prior to January 2010, the Company had capital leases outstanding in the amount of \$1,287,407 with Bank of America. On January 8, 2010 the Company repaid the Bank of America capital leases using proceeds from the senior credit facility. On January 19, 2010 the Company entered into a leasing transaction with Wells Fargo Equipment Finance, Inc. to finance \$1,287,407 of equipment. The term of the lease financing agreement extends to January 18, 2012 with monthly payments of \$55,872 and a fixed interest rate of 4.29%.

Cash used in financing activities was \$6,669,120 for the third quarter ended January 31, 2010, compared to \$2,021,062 for the same period in the prior fiscal year. Cash used in financing activities was primarily the result of net payments made to reduce the balance outstanding under the Company's banking agreements by approximately \$5,700,000.

Note E — Critical Accounting Policies:

Management Estimates and Uncertainties - The preparation of consolidated financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the consolidated financial statements and the reported amounts of revenues and expenses during the reporting period. Significant estimates made in preparing the consolidated financial statements include depreciation and amortization periods, the allowance for doubtful accounts, reserves for inventory and valuation of long-lived assets. Actual results could materially differ from these estimates.

Revenue Recognition - Revenues from sales of the Company's electronic manufacturing services business are recognized when the product is shipped to the customer. In general, it is the Company's policy to recognize revenue and related costs when the order has been shipped from our facilities, which is also the same point that title passes under the terms of the purchase order except for consignment inventory. Consignment inventory is shipped from the Company to an independent warehouse for storage or shipped directly to the customer and stored in a segregated part of the customer's own facility. Upon the customer's request for inventory, the consignment inventory is shipped to the customer if the inventory was stored off-site or transferred from the segregated part of the customer's facility for consumption, or use, by the customer. The Company recognizes revenue upon such transfer. The Company from time to time may ship an order from its facilities which is also the same point that title passes under the terms of the purchase order and invoice the customer at the end of the calendar month. This is done only in special circumstances to accommodate a specific customer. The Company does not earn a fee for storing the consignment inventory. The Company generally provides a 90 day warranty for workmanship only and does not have any installation, acceptance or sales incentives, although the Company has negotiated longer warranty terms in certain instances. The Company assembles and tests assemblies based on customers' specifications. Historically, the amount of returns for workmanship issues has been de minimis under the Company's standard or extended warranties.

Inventories - Inventories are valued at the lower of cost or market. Cost is determined by the first-in, first-out method. The Company establishes inventory reserves for valuation, shrinkage, and excess and obsolete inventory. The Company records provisions for inventory shrinkage based on historical experience to account for unmeasured usage or loss. Actual results differing from these estimates could significantly affect the Company's inventories and cost of products sold. The Company records provisions for excess and obsolete inventories for the difference between the cost of inventory and its estimated realizable value based on assumptions about future product demand and market conditions. Actual product demand or market conditions could be different than that projected by management.

Impairment of Long-Lived Assets - The Company reviews long-lived assets including amortizable intangible assets for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. An asset is considered impaired if its carrying amount exceeds the future undiscounted net cash flow the asset is expected to generate. If such asset is considered to be impaired, the impairment to be recognized is measured by the amount by which the carrying amount of the asset exceeds its fair market value.

New Accounting Standards:

In September 2006, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Codification ("ASC or the Codification") 820-10 (Fair Value Measurements and Disclosures (formerly SFAS 157, "Fair Value Measurements"), which defines fair value, establishes a framework for measuring fair value in generally accepted accounting principles and expands disclosures about fair value measurements. In November 2007, the FASB agreed to a one-year deferral of the effective date of ASC 820-10 for all non-financial assets and liabilities, except those that are recognized or disclosed at fair value in the financial statements on a recurring basis. There was no significant impact from adoption of ASC 820-10 for non-financial assets and liabilities on the Company's financial statements.

In December 2007, the FASB issued ASC 805-10 Business Combinations (formerly SFAS 141R, "Business Combinations"). This Statement retains the fundamental requirements in ASC 805-10 that the acquisition method of accounting (formerly referred to as purchase method) is to be used for all business combinations and that an acquirer is identified for each business combination. This Statement defines the acquirer as the entity that obtains control of one or more businesses in the business combination and establishes the acquisition date as of the date that the acquirer achieves control. This Statement requires an acquirer to recognize the assets acquired, the liabilities assumed, and any noncontrolling interest in the acquiree at the acquisition date, measured at their fair values. This Statement requires the acquirer to recognize acquisition-related costs and restructuring costs separately from the business combination as period expense. This Statement is effective for business combinations for which the acquisition date is on or after the beginning of the first annual reporting period beginning on or after December 15, 2008. The Company will implement ASC 805-10 for any future business combinations.

In December 2007, the FASB issued ASC 810-10 Consolidation (formerly SFAS 160, "Noncontrolling Interest in Consolidated Financial Statements, an amendment of Accounting Research Bulletin No. 51"), which establishes accounting reporting standards for ownership interests in subsidiaries held by parties other than the parent, the amount of consolidated net income attributable to the parent and to the noncontrolling interest, changes in a parent's ownership interest, and the valuation of retained noncontrolling equity investments when a subsidiary is deconsolidated. ASC 810-10 also establishes disclosure requirements that clearly identify and distinguish between the interests of the parent and the interests of the noncontrolling owners. ASC 810-10 is effective for fiscal years beginning after December 15, 2008. There was no significant impact from adoption of ASC 810-10 on the Company's consolidated results of operations and financial condition.

Item 2. Management’s Discussion and Analysis of Financial Condition and Results of Operations.

In addition to historical financial information, this discussion of the business of SigmaTron International, Inc., its wholly-owned subsidiaries Standard Components de Mexico S.A., and AbleMex S.A. de C.V., SigmaTron International Trading Co. and its wholly-owned foreign enterprise Wujiang SigmaTron Electronics Co., Ltd. (“SigmaTron China”) and its procurement branch SigmaTron Taiwan (collectively the “Company”) and other Items in this Quarterly Report on Form 10-Q contain forward-looking statements concerning the Company’s business or results of operations. Words such as “continue,” “anticipate,” “will,” “expect,” “believe,” “plan,” and similar expressions identify forward-looking statements. These forward-looking statements are based on the current expectations of the Company. Because these forward-looking statements involve risks and uncertainties, the Company’s plans, actions and actual results could differ materially. Such statements should be evaluated in the context of the risks and uncertainties inherent in the Company’s business including the Company’s continued dependence on certain significant customers; the continued market acceptance of products and services offered by the Company and its customers; pricing pressures from our customers, suppliers and the market; the activities of competitors, some of which may have greater financial or other resources than the Company; the variability of our operating results; the results of long-lived assets impairment testing; the variability of our customers’ requirements; the availability and cost of necessary components and materials; the ability of the Company and our customers to keep current with technological changes within our industries; regulatory compliance; the continued availability and sufficiency of our credit arrangements; changes in U.S., Mexican, Chinese or Taiwanese regulations affecting the Company’s business; the current turmoil in the global economy and financial markets; the stability of the U.S., Mexican, Chinese and Taiwanese economic systems, labor and political conditions; currency exchange fluctuations; and the ability of the Company to manage its growth. These and other factors which may affect the Company’s future business and results of operations are identified throughout the Company’s Annual Report on Form 10-K and as risk factors and may be detailed from time to time in the Company’s filings with the Securities and Exchange Commission. These statements speak as of the date of such filings, and the Company undertakes no obligation to update such statements in light of future events or otherwise unless otherwise required by law.

Overview:

The Company operates in one business segment as an independent provider of electronic manufacturing services (“EMS”), which includes printed circuit board assemblies and completely assembled (box-build) electronic products. In connection with the production of assembled products, the Company also provides services to its customers, including (1) automatic and manual assembly and testing of products; (2) material sourcing and procurement; (3) design, manufacturing and test engineering support; (4) warehousing and shipment services; and (5) assistance in obtaining product approval from governmental and other regulatory bodies. The Company provides these manufacturing services through an international network of facilities located in the United States, Mexico, China and Taiwan.

The Company relies on numerous third-party suppliers for components used in the Company’s production process. Certain of these components are available only from single sources or a limited number of suppliers. In addition, a customer’s specifications may require the Company to obtain components from a single source or a small number of suppliers. The loss of any such suppliers could have a material impact on the Company’s results of operations, and the Company may be required to operate at a cost disadvantage compared to competitors who have greater direct buying power from suppliers. Recently the Company has experienced an increase in lead times for various types of

components, due to increased demand. The Company does not enter into purchase agreements with major or single-source suppliers. The Company believes that ad-hoc negotiations with its suppliers provides flexibility, given that the Company's orders are based on the needs of its customers, which constantly change.

Sales can be a misleading indicator of the Company's financial performance. Sales levels can vary considerably among customers and products depending on the type of services (consignment and turnkey) rendered by the Company and the demand by customers. Consignment orders require the Company to perform manufacturing services on components and other materials supplied by a customer, and the Company charges only for its labor, overhead and manufacturing costs, plus a profit. In the case of turnkey orders, the Company provides, in addition to manufacturing services, the components and other materials used in assembly. Turnkey contracts, in general, have a higher dollar volume of sales for each given assembly, owing to inclusion of the cost of components and other materials in net sales and cost of goods sold. Variations in the number of turnkey orders compared to consignment orders can lead to significant fluctuations in the Company's revenue levels. However, the Company does not believe that such variations are a meaningful indicator of the Company's gross margins. Consignment orders accounted for less than 5% of the Company's revenues for the nine months ended January 31, 2010 and 2009.

In the past, the timing and rescheduling of orders have caused the Company to experience significant quarterly fluctuations in its revenues and earnings, and the Company expects such fluctuations to continue. The uncertainty associated with the worldwide economy in general, and the United States' economy specifically, makes forecasting difficult. Generally speaking, the markets of all of the Company's customers are expected to remain volatile. Customer demand remains volatile and unpredictable, but is expected to be stronger in the second half of calendar 2010 than the same period of calendar 2009.

Results of Operations:

Net Sales

Net sales increased for the three month period ended January 31, 2010 to \$30,599,499 from \$26,970,927 for the three month period ended January 31, 2009. Net sales decreased for the nine months ended January 31, 2010 to \$87,493,820 from \$106,581,773 for the same period in the prior fiscal year. Sales volume increased for the three month period ended January 31, 2010 as compared to the same period in the prior year in the fitness, appliance, telecommunications, semiconductor equipment and life sciences marketplaces. The increase in sales for these marketplaces was partially offset by a decrease in sales in the industrial electronics and gaming marketplaces. Sales volume decreased for the nine month period ended January 31, 2010 as compared to the same period in the prior year in the fitness, industrial electronics, appliance, telecommunications, semiconductor equipment and life sciences marketplaces. The decrease in sales for these marketplaces was partially offset by an increase in sales in the gaming marketplace. The overall decrease in revenue for the nine month period ended January 31, 2010 is a result of our customers' decreased demand for product based on their forecasts, which we believe is attributable to the global economic slowdown.

Gross Profit

Gross profit increased during the three month period ended January 31, 2010 to \$3,379,791 or 11.1% of net sales, compared to \$2,752,231 or 10.2% of net sales for the same period in the prior fiscal year. Gross profit decreased for the nine month period ended January 31, 2010 to \$8,922,940 or 10.2% of net sales, compared to \$13,312,808 or 12.5% of net sales for the same period in the prior fiscal year. The increase in gross margin in total dollars and as a percent of sales for the three month period ended January 31, 2010 compared to the prior period is due to the mix of product shipped to various customers and continuing efforts to control costs. The decrease in gross margin in total dollars and as a percent of sales for the nine month period ended January 31, 2010 compared to the prior period is due to decreased revenue levels and decreased plant capacity utilization.

The Company has reduced its worldwide headcount through attrition and lay-offs. Further, the Company implemented salary reductions for all non-union U.S. employees beginning February 2009. The Company lowered its cost structure during fiscal year 2009 based on customers' demands for product. The soft demand resulted in layoffs at the Hayward, California, Elk Grove Village, Illinois and Tijuana, Mexico locations and work week hour reductions at its Hayward, California and Acuna, Mexico facilities. In the quarter ended October 31, 2009 the Company experienced an increase in demand for product and resumed operating near-full work weeks at its Hayward, California and Acuna, Mexico operations. There can be no assurance that sales levels and gross margins will not decrease in future quarters. Pricing pressures continue at all locations.

Selling and Administrative Expenses

Selling and administrative expenses decreased to \$2,503,571 or 8.2% of net sales for the three month period ended January 31, 2010 compared to \$2,666,375 or 9.9% of net sales in the same period in the prior fiscal year. Selling and administration expenses decreased to \$7,448,821 or 8.5% of net sales for the nine month period ended January 31, 2010 compared to \$9,328,834 or 8.8% of net sales in the same period in the prior fiscal year. The decrease in total dollars for the three and nine month periods ended January 31, 2010, was approximately \$163,000 and \$1,880,000, respectively, and is primarily due to a decrease in bonus expense, accounting, IT, and office salaries, legal fees and amortization expense. The decrease in total dollars for the three and nine month periods ended January 31, 2010 was partially offset by bank fee expense of \$90,000 due to the change in banks in the third quarter of fiscal 2010.

Interest Expense

Interest expense for bank debt and capital lease obligations for the three month period ended January 31, 2010 was \$214,310 compared to \$431,169 for the same period in the prior year. Interest expense for the nine month period ended January 31, 2010 was \$649,713 compared to \$1,438,644 for the same period in the prior year. These changes were attributable to the Company's decreased borrowings under its banking agreements, capital leases, and lower interest rates. Interest expense for future quarters may increase if interest rates or borrowings increase.

Taxes

The income tax expense from operations was \$248,892 for the three month period ended January 31, 2010 compared to \$104,873 for the same period in the prior fiscal year. Income tax expense from operations was \$316,309 for the nine month period ended January 31, 2010 compared to \$1,068,525 for the same period in the prior fiscal period. The effective tax rate was 37% for the nine months ended January 31, 2010 and 2009, respectively.

Net Income

Net income from operations increased to \$415,468 for the three month period ended January 31, 2010 compared to a net loss from operations of \$265,458 for the same period in the prior year. Net income from operations decreased to \$530,291 for the nine months ended January 31, 2010 compared to \$1,819,182 in the same period last year. Basic and diluted earnings per share for the third fiscal quarter of 2010 were \$0.11, compared to basic and diluted loss per share of \$0.07 for the same period in the prior year. Basic and diluted earnings per share for the nine months ended January 31, 2010 were \$0.14 and \$0.13, respectively, compared to basic and diluted earnings per share of \$0.48 and \$0.47, respectively, for the same period in the prior year.

Liquidity and Capital Resources:

Operating Activities.

Cash flow provided by operating activities was \$10,033,273 for the nine months ended January 31, 2010, compared to \$3,276,206 for the same period in the prior year. During the first nine months of fiscal year 2010, cash flow provided by operating activities was a result of net income adjusted for the non-cash effect of depreciation and amortization, a decrease in inventory, an increase in accounts payable, and net income. Net cash provided by operations was partially offset by an increase in accounts receivable. The change in accounts payable and accounts receivable is due to timing of payments in the ordinary course of business. The decrease in inventory was the result of our customers' decreased demand for product based on their forecasts, which we believe is attributable to the global economic slowdown.

Cash flow provided by operating activities was \$3,276,206 for the nine months ended January 31, 2009. During the first nine months of fiscal year 2009, cash flow provided by operating activities was due to net income, a decrease in accounts receivable and inventory and the non-cash effect of depreciation and amortization. Net cash provided by operations was partially offset by a \$9,251,309 decrease in accounts payable. The decrease in accounts payable and accounts receivable is due to timing of payments in the ordinary course of business.

Investing Activities.

During the first nine months of fiscal year 2010, the Company purchased approximately \$2,000,000 in machinery and equipment to be used in the ordinary course of business. Approximately \$440,000 of the purchases is a financed licensing agreement for software through a note payable. The Company expects to make additional machinery and equipment purchases of approximately \$1,000,000 during the balance of fiscal year 2010. During the first nine months of fiscal year 2009, the Company purchased approximately \$1,120,000 in machinery and equipment in the ordinary course of business, including approximately \$360,000 of equipment financed with a lease agreement.

Financing Transactions.

Prior to January 2010, the Company had a revolving credit facility with Bank of America under which the Company could borrow up to the lesser of: (i) \$32 million; or (ii) an amount equal to the sum of 85% of the eligible receivable borrowing base and the lesser of \$16 million or 50% of the eligible inventory borrowing base. The revolving credit facility was due to expire on September 30, 2010. In October 2009 the Company conducted a strategic review of its financing arrangements to determine the best long-term alternatives. Based on that evaluation the Company decided to reduce the overall size of its credit facility to \$25 million. Effective October 31, 2009, the Company was in violation of a financial covenant under its agreements with Bank of America. In December 2009,

Bank of America provided a Forbearance on the covenant violation until January 8, 2010 to allow the Company to transition to a new bank. On January 8, 2010, the Company entered into a \$25 million senior secured credit facility with Wells Fargo HSBC Trade Bank, National Association ("Wells Fargo"). The term of the Credit Agreement (a copy of which was filed with as Exhibit 10.1 to the Company's current report on Form 8-K filed with the SEC on January 14, 2010 (the "January 8-K"), which is incorporated herein by reference) extends for two years, through January 8, 2012, and allows the Company to choose the interest rates at which it may borrow funds, which options are based upon the terms of the Revolving Line of Credit Note issued by the Company on January 8, 2010 (a copy of which was filed as Exhibit 10.2 to the January 8-K and which is incorporated herein by reference). The senior secured credit facility requires the Company to be in compliance with several financial covenants. As of January 31, 2010 there was \$15,045,478 outstanding under the senior secured credit facility and approximately \$9.5 million of unused availability. The Company was in compliance with its financial covenants at January 31, 2010.

Prior to January 2010, the Company also had a term loan with Bank of America with an outstanding balance at January 8, 2010 of \$1,500,000, with quarterly principal payments of \$250,000 due each quarter through the quarter ending June 30, 2011 and interest payable monthly throughout the term of the loan. On January 8, 2010 the Company repaid this debt using proceeds from the senior secured credit facility from Wells Fargo.

On November 19, 2003, the Company purchased the property that serves as the Company's corporate headquarters and its Midwestern manufacturing facility. The Company executed a mortgage with Bank of America in the amount of \$3.6 million. On January 8, 2010 the Company entered into a mortgage agreement in the amount of \$2.5 million with Wells Fargo to refinance the property. The Promissory Note (a copy of which was filed as Exhibit 10.3 to the January 8-K and which is incorporated herein by reference) bears interest at a fixed rate of 6.42% per year and is payable in sixty monthly installments. A final payment of approximately \$2 million is due on or before January 8, 2015. The Company repaid the prior Bank of America mortgage, the outstanding obligations under which equaled \$2,565,413 as of January 8, 2010, using proceeds from the Wells Fargo mortgage and senior secured credit facility.

Prior to January 2010, the Company had capital leases outstanding in the amount of \$1,287,407 with Bank of America. On January 8, 2010 the Company repaid the Bank of America capital leases using proceeds from the senior credit facility. On January 19, 2010 the Company entered into a leasing transaction with Wells Fargo Equipment Finance, Inc. to finance \$1,287,407 of equipment. The term of the lease financing agreement extends to January 18, 2012 with monthly payments of \$55,872 and a fixed interest rate of 4.29%.

Cash used in financing activities was \$6,669,120 for the third quarter ended January 31, 2010, compared to \$2,021,062 for the same period in the prior fiscal year. Cash used in financing activities was primarily the result of net payments made to reduce the balance outstanding under the Company's banking agreements by approximately \$5,700,000.

The Company anticipates its new credit facilities, cash flow from operations and leasing resources will be adequate to meet its working capital requirements and capital expenditures for the balance of fiscal year 2010. There is no assurance that the Company will be able to retain or renew its credit agreements in the future. In the event the business grows rapidly, the current economic climate continues for an extended period or the Company considers an acquisition, additional financing resources could be necessary in the current or future fiscal years. There is no assurance that the Company will be able to obtain equity or debt financing at acceptable terms in the future.

The Company provides funds for salaries, wages, overhead and capital expenditure items as necessary to operate its wholly-owned Mexican and Chinese subsidiaries and the Taiwan procurement branch. The Company provides funding in U.S. dollars, which are exchanged for Pesos, Renminbi, and New Taiwan dollars as needed. The fluctuation of currencies from time to time, without an equal or greater increase in inflation, could have a material impact on the financial results of the Company. The impact of currency fluctuation for the nine months ended January 31, 2010, resulted in an expense of approximately \$192,000. During the first nine months of fiscal year 2010, the Company's U.S. operations paid approximately \$9,950,000 to its foreign subsidiaries for services provided.

Off-balance Sheet Transactions:

The Company has no off-balance sheet transactions.

Contractual Obligations and Commercial Commitments:

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, we are not required to provide the information required by this item.

Item 3. Quantitative and Qualitative Disclosures About Market Risk.

As a smaller reporting company, as defined in Rule 12b-2 of the Securities Exchange Act of 1934, we are not required to provide the information required by this item.

Item 4. Controls and Procedures.

Our management, including our President and Chief Executive Officer and Chief Financial Officer, evaluated the effectiveness of the design and operation of our disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) as of April 30, 2009. Our disclosure controls and procedures are designed to ensure that information required to be disclosed by the Company in the reports filed by the Company under the Securities Exchange Act of 1934 (the "Exchange Act") is recorded, processed, summarized and reported within the time periods specified in the Securities and Exchange Commission's rules and forms and that such information is accumulated and communicated to our management, including our President and Chief Executive Officer and Chief Financial Officer, as appropriate to allow timely decisions regarding required disclosure. Based on this evaluation, our President and Chief Executive Officer and Chief Financial Officer concluded that the Company's disclosure controls and procedures were effective as of January 31, 2010.

There has been no change in our internal control over financial reporting during the quarter ended January 31, 2010, that has materially affected or is reasonably likely to materially affect, our internal control over financial reporting.

PART II — OTHER INFORMATION

Item 1. Legal Proceedings.

As of January 31, 2010, the Company was not a party to any material legal proceedings.

From time to time the Company is involved in legal proceedings, claims or investigations that are incidental to the conduct of the Company's business. In future periods, the Company could be subjected to charges to earnings if any of these matters is resolved on unfavorable terms. However,

although the ultimate outcome of any legal matter cannot be predicted with certainty, based on present information, including management's assessment of the merits of any particular claim, the Company does not expect that these legal proceedings or claims will have any material adverse impact on its future consolidated financial position or results of operations.

Item 1A. Risk Factors.

The information presented below includes any material changes to the description of the risk factors affecting our business as previously disclosed in Item 1A. to Part 1 of our Annual Report on Form 10-K for the fiscal year ended April 30, 2009.

The Company's business could be adversely affected by worldwide economic conditions.

The current challenging worldwide economic conditions could adversely affect the Company's business and/or operating results by:

- reduced sales,
- increased operating costs,
- customers' inability to accurately forecast orders,
- increased inventory carrying costs,
- increased risk of uncollectible customer accounts receivable and unpaid customer inventory obligations,
- limiting the Company's access to affordable financing.

Sales:

If the current worldwide economic downturn continues, many of the Company's customers may further delay or reduce their orders. In addition, many of the Company's customers may rely on credit financing in order to operate their businesses. If the negative conditions in the global credit markets reduce our customers' access to credit, orders may decrease, which could result in lower revenue.

Operating Costs:

If the Company's suppliers have difficulty obtaining credit required to finance their businesses, they may become unable to continue to manufacture, or supply the components used to manufacture, our customer's products. These disruptions could decrease the Company's revenue and increase operating costs, which could adversely affect the Company's results of operations and financial condition.

Inventory Carrying Costs:

The challenging worldwide economic conditions and market instability make it increasingly difficult for the Company's customers to accurately forecast future order trends. This condition could result in customers pushing back their product order acceptance schedules, which could result in increased inventory carrying costs. The increased carrying costs could have a negative impact on the Company's financial results.

Uncollectible Accounts:

The Company could suffer significant losses if a customer is unable to pay its accounts receivable or if the customer is unable to pay for its inventory procured by the Company on its behalf. An increase in uncollectible accounts receivable or customers' inability to pay the Company for inventory obligations would have a negative impact on the Company's financial results.

Access to Credit:

If credit markets continue to tighten, the Company's bank could be unwilling to continue to extend credit to the Company at the current level of the credit facility, if at all. The Company's ability to finance its operations could be negatively affected in such an event. (See the *Financing Transaction portion of Item 2, above*).

Item 2. Unregistered Sales of Equity Securities and Use of Proceeds.

None.

Item 3. Defaults Upon Senior Securities.

None.

Item 4. Submission of Matters to a Vote of Security Holders.

None.

Item 5. Other Information.

None.

Item 6. Exhibits.

(a) Exhibits:

- 10.17 Credit Agreement between SigmaTron International, Inc. and Wells Fargo HSBC Trade Bank, National Association, dated January 8, 2010, filed as Exhibit 10.1 to the Company's Form 8-K filed on January 14, 2010, and incorporated herein by reference.
- 10.18 Revolving Line of Credit Note issued by SigmaTron International, Inc. to Wells Fargo HSBC Trade Bank, National Association, dated January 8, 2010, filed as Exhibit 10.2 to the Company's Form 8-K filed on January 14, 2010, and incorporated herein by reference.
- 10.19 Promissory Note issued by SigmaTron International, Inc. to Wells Fargo HSBC Trade Bank, National Association, dated January 8, 2010, filed as Exhibit 10.3 to the Company's Form 8-K filed on January 14, 2010, and incorporated herein by reference.
- 31.1 Certification of Principal Executive Officer of the Company Pursuant to Rule 13a-14(a) under the Exchange Act, as adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.

- 31.2 Certification of Principal Financial Officer of the Company Pursuant to Rule 13a-14(a) under the Exchange Act, as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002.
- 32.1 Certification by the Principal Executive Officer of SigmaTron International, Inc. Pursuant to Rule 13a-14(b) under the Exchange Act and Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).
- 32.2 Certification by the Principal Financial Officer of SigmaTron International, Inc. Pursuant to Rule 13a-14(b) under the Exchange Act and Section 906 of the Sarbanes-Oxley Act of 2002 (18 U.S.C. 1350).
- 99.1 SigmaTron International, Inc. press release dated January 11, 2010, filed as Exhibit 99.1 to the Company's Form 8-K filed on January 14, 2010, and incorporated herein by reference.

SIGNATURES:

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned thereunto duly authorized.

**Certification of Principal Executive Officer of
SigmaTron International, Inc.
Pursuant to Rule 13a-14(a) under the Exchange Act,
as Adopted Pursuant to Section 302 of the Sarbanes-Oxley Act of 2002**

I, Gary R. Fairhead, President and Chief Executive Officer of SigmaTron International, Inc., certify that:

1. I have reviewed this Quarterly Report on Form 10-Q of SigmaTron International, Inc.;
2. Based on my knowledge, this report does not contain any untrue statement of a material fact or omit to state a material fact necessary to make the statements made, in light of the circumstances under which such statements were made, not misleading with respect to the period covered by this report;
3. Based on my knowledge, the financial statements, and other financial information included in this report, fairly present in all material respects the financial condition, results of operations and cash flows of the registrant as of, and for, the periods presented in this report;
4. The registrant's other certifying officer and I are responsible for establishing and maintaining disclosure controls and procedures (as defined in Exchange Act Rules 13a-15(e) and 15d-15(e)) and internal controls over financial reporting (as defined in Exchange Act Rules 13a-15(f) and 15d-15(f)) for the registrant and have:
 - a. Designed such disclosure controls and procedures, or caused such disclosure controls and procedures to be designed under our supervision, to ensure that material information relating to the registrant, including its consolidated subsidiaries, is made known to us by others within those entities, particularly during the period in which this report is being prepared;
 - b. Designed such internal control over financial reporting, or caused such internal control over financial reporting to be designed under our supervision, to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles;
 - c. Evaluated the effectiveness of the registrant's disclosure controls and procedures and presented in this report our conclusions about the effectiveness of the disclosure controls and procedures, as of the end of the period covered by this report based on such evaluation; and
 - d. Disclosed in this report any change in registrant's internal control over financial reporting that occurred during the registrant's most recent fiscal quarter (the registrant's fourth fiscal quarter in the case of an annual report) that has materially affected, or is reasonably likely to materially affect, the registrant's internal control over financial reporting; and

5. The registrant's other certifying officer and I have disclosed, based on our most recent evaluation of internal control over financial reporting, to the registrant's auditors and the audit committee of the registrant's board of directors (or persons performing the equivalent functions):
- a. All significant deficiencies and material weaknesses in the design or operation of internal control over financial reporting which are reasonably likely to adversely affect the registrant's ability to record, process, summarize and report financial information; and
 - b. Any fraud, whether or not material, that involves management or other employees who have a significant role in the registrant's internal control over financial reporting.
